

Technical Data Sheet (TDS)

SILOTEKT S

Description:

SILOTEKT S is a high-quality general-purpose water repellent designed for natural stones and porous surfaces. It provides long-lasting protection without altering the surface appearance.

Advantages:

- Outstanding water repellent
- Suitable for interior and exterior application
- Long lasting protection
- Transparent: does not change the appearance or original color of the surface
- Excellent penetration into pores of the surface
- Excellent resistance to fungus and mildew

Application:

Recommended to use for exterior and interior applications as a protective coat to prevent water penetration in:

- Brickwork
- All kinds of concrete
- Aerated concrete
- Sand-lime brickwork
- Cement fiberboards
- Mineral plasters
- Exterior paints
- Mineral-based natural and artificial stone
